📋 PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building scalable web and mobile applications using React.js, Node.js, Express.js, MySQL, MongoDB, and Flutter. Skilled in REST API development, authentication systems, payment integration, admin panels, and responsive UI development.

Experience in developing end-to-end applications with OTP/JWT authentication, booking workflows, Razorpay integration, and role-based modules for customers, partners, and admins. Strong understanding of backend development, database management, debugging, and deployment.

🎓 EDUCATION

Everest College of Engi. & Technology (EESCOET), B.E. Computer Science
07/2021 – 05/2025 | Aurangabad, India
CGPA: 7

Government Polytechnic Osmanabad, Diploma in Computer Science
06/2014 – 05/2017 | Osmanabad, India
GPA: 7.9

🧠 SKILLS SUMMARY

Languages: JavaScript, HTML5, CSS3

Frontend Technologies: React.js, Bootstrap, Responsive Web Design, Axios

Backend Technologies: Node.js, Express.js, REST API Development, JWT Authentication, OTP Authentication

Database: MySQL, MongoDB

Mobile App Development: Flutter

Tools & Platforms: Git, GitHub, Postman, VS Code, Android Studio, Figma, phpMyAdmin, PM2, Nginx

Core Skills: Full Stack Development, API Integration, Database Design, Debugging, Deployment.

🧩 STRENGTHS

Effective Communication, Adaptability, creative thinking, Problem-solving skills

🔑 INTERESTS

Reading, Travelling

📜 CERTIFICATES

- Certificate of completion MERN Full Stack Development

📁 WORK EXPERIENCE

Freelance Full Stack Developer, Home Services Platform (Web + Mobile)

06/2025 – Present

- Developed a complete home services platform including Website, Admin Panel, Consumer App, and Partner App using React.js, Flutter, Node.js, Express.js, and MySQL with REST API integration.
- Built secure OTP and JWT-based authentication system for users, partners, and admin modules.
- Designed end-to-end booking workflows including categories, services, cart management, slot booking, order processing, and payment handling.
- Developed scalable backend APIs for authentication, services, orders, partner management, payouts, and admin operations.
- Built responsive frontend interfaces and reusable UI components with API integration and state management.
- Integrated Razorpay payment gateway and Cash on Delivery (COD) with payment verification workflows.
- Created Admin Panel with complete CRUD operations for managing users, partners, services, bookings, payments, and payouts.
- Implemented Partner module for order assignment, status updates, service tracking, and earnings management.
- Managed MySQL database design, API testing, debugging, deployment, and server management using PM2 and Nginx.
- Developed Flutter-based Consumer and Partner mobile applications connected with the same backend APIs.

Frontend Developer, A3HITECH

06/2017 – 01/2020

- **Responsibilities:**
- Developed responsive and interactive frontend applications using React.js, JavaScript, HTML5, CSS3, Bootstrap, jQuery, and REST APIs
- Built reusable React components using Hooks, Props, State Management, React Router, and component-based architecture
- Developed dashboards, forms, responsive layouts, and dynamic user interfaces with focus on clean UI/UX and performance optimization
- Worked on API integration, frontend debugging, state handling, form validations, and cross-browser compatibility
- Collaborated with backend teams and clients to deliver scalable, user-friendly, and mobile-responsive web applications.

📁 PROJECTS

Turkeeit – Web Admin & Backend System

Developed the web admin panel and backend APIs for a home services platform using React.js, Node.js, Express.js, and MySQL. Built modules for user management, categories, services, orders, partner assignment, authentication, and payment handling. Integrated REST APIs, JWT authentication, and Razorpay payment workflows with scalable backend architecture.

Tech Stack: React.js, Node.js, Express.js, MySQL, REST APIs, JWT, Razorpay

Turkeeit – Consumer Mobile App, Consumer & Partner App

Developed a Flutter-based consumer application for home service booking with OTP authentication, service browsing, cart management, slot booking, address handling, and real-time order tracking. Integrated REST APIs and Razorpay payment gateway with Online Payment and COD support.

Tech Stack: Flutter, REST APIs, Razorpay, JWT Authentication, Android Studio, MySQL

Turkeeit – Partner Mobile App

Developed a Flutter-based partner application for service professionals to manage assigned bookings, update order statuses, handle cancellations, and track earnings/payouts. Implemented secure authentication and real-time API integration for smooth service operations.

Tech Stack: Flutter, REST APIs, JWT, Android Studio, MySQL, Git
